INGREDIENTS:

Calcium Propionate, Potassium Chloride, Magnesium Sulfate, Niacin, Magnesium Oxide, Sodium Bicarbonate, Canola Oil, Calcium Chloride, Active Dry Yeast, Vitamin E Supplement, Vitamin A Supplement, Calcium Sulfate, Vitamin D3 Supplement, Ascorbic Acid, Calcium Acetate, Calcium Lactate, Biotin Supplement, Vitamin B-12 Supplement, Thiamine Mononitrate, Pyridoxine Hydrochloride, d-Calcium Panthothenate, Folic Acid and Riboflavin Supplement.

RECOMMENDED USES:

Drench cows at calving as part of routine fresh cow management protocols.

APPLICATION / FEEDING DIRECTIONS:

Mix 1 to 1.5 pounds powder into at least 5 gallons of warm water and administer via "Drench-Mate Drenching System" after calving. Mix 1 pound into 5 gallons of warm water and administer once daily for next two days if needed.

Do not feed dry powder to cattle. Avoid contact with eyes and skin. For animal use only. Drench should be stored in a cool, dry place. Open containers should be resealed to ensure maximum freshness. Under these conditions this should provide 12 months of shelf life from the manufacturing date shown below.

Two cups measuring = one pound
Three cups measuring = 1.5 pounds

Net Weight 50 lbs. (22.68 kg)
